Dear Friends,

As 2019 comes to an end, the Piedmont Charitable Foundation (PCF) is very grateful to our sponsors who have supported us year after year with the funds necessary to assist our future leaders, families in need, our military warriors, and important medical research. As you consider your charitable contribution options to close out 2019, please consider our foundation that channels the generosity of our community to drive change in our area, raise awareness and improve the health and well-being of our neighbors.

"The mission of the PCF is to enhance and enrich Community Programs that primarily benefit members of the Piedmont Community."

We are proud of our accomplishments, yet we know plenty of work remains to support these local campaigns and make a difference in the community. Through the generous donations of our sponsors and the work of volunteers, we have presented more than $275,000 in donations to these worthy causes. None of this would be possible without your ongoing support and trust in our foundation.

The PCF was established with the goal of creating a positive, long-lasting impact on the charitable causes championed by its members for those whose lives they touch.

John K. Munies II
Chairman

Because of your generous donations and support, we can celebrate all that happened this year including:

Announced 3 new college scholarship awardees. This is the 9th consecutive year supporting the next generation of community leaders.

Honored our military and their families through several campaigns including our local Bull Run Warrior Retreat, partnering with Wreaths Across America for our military cemetery in Manassas, Tragedy Assistance Program for Survivors (TAPS), Azalea Charities to support their important work for local military families, and executed another successful “Tidings to our Troops” event sending 1,000’s of holiday cards to our overseas military personnel to let them know that they are not forgotten, and that we are all grateful for their service.

Helped make a small difference in the lives of local children who are ill and whose families needed financial and emotional support during their treatments and recovery.

Supported local campaigns to raise funds and awareness for our partners who are searching for a cure for disabling and life-threatening diseases such as NBIA and ALS.
